nothing is lost, its just transforms

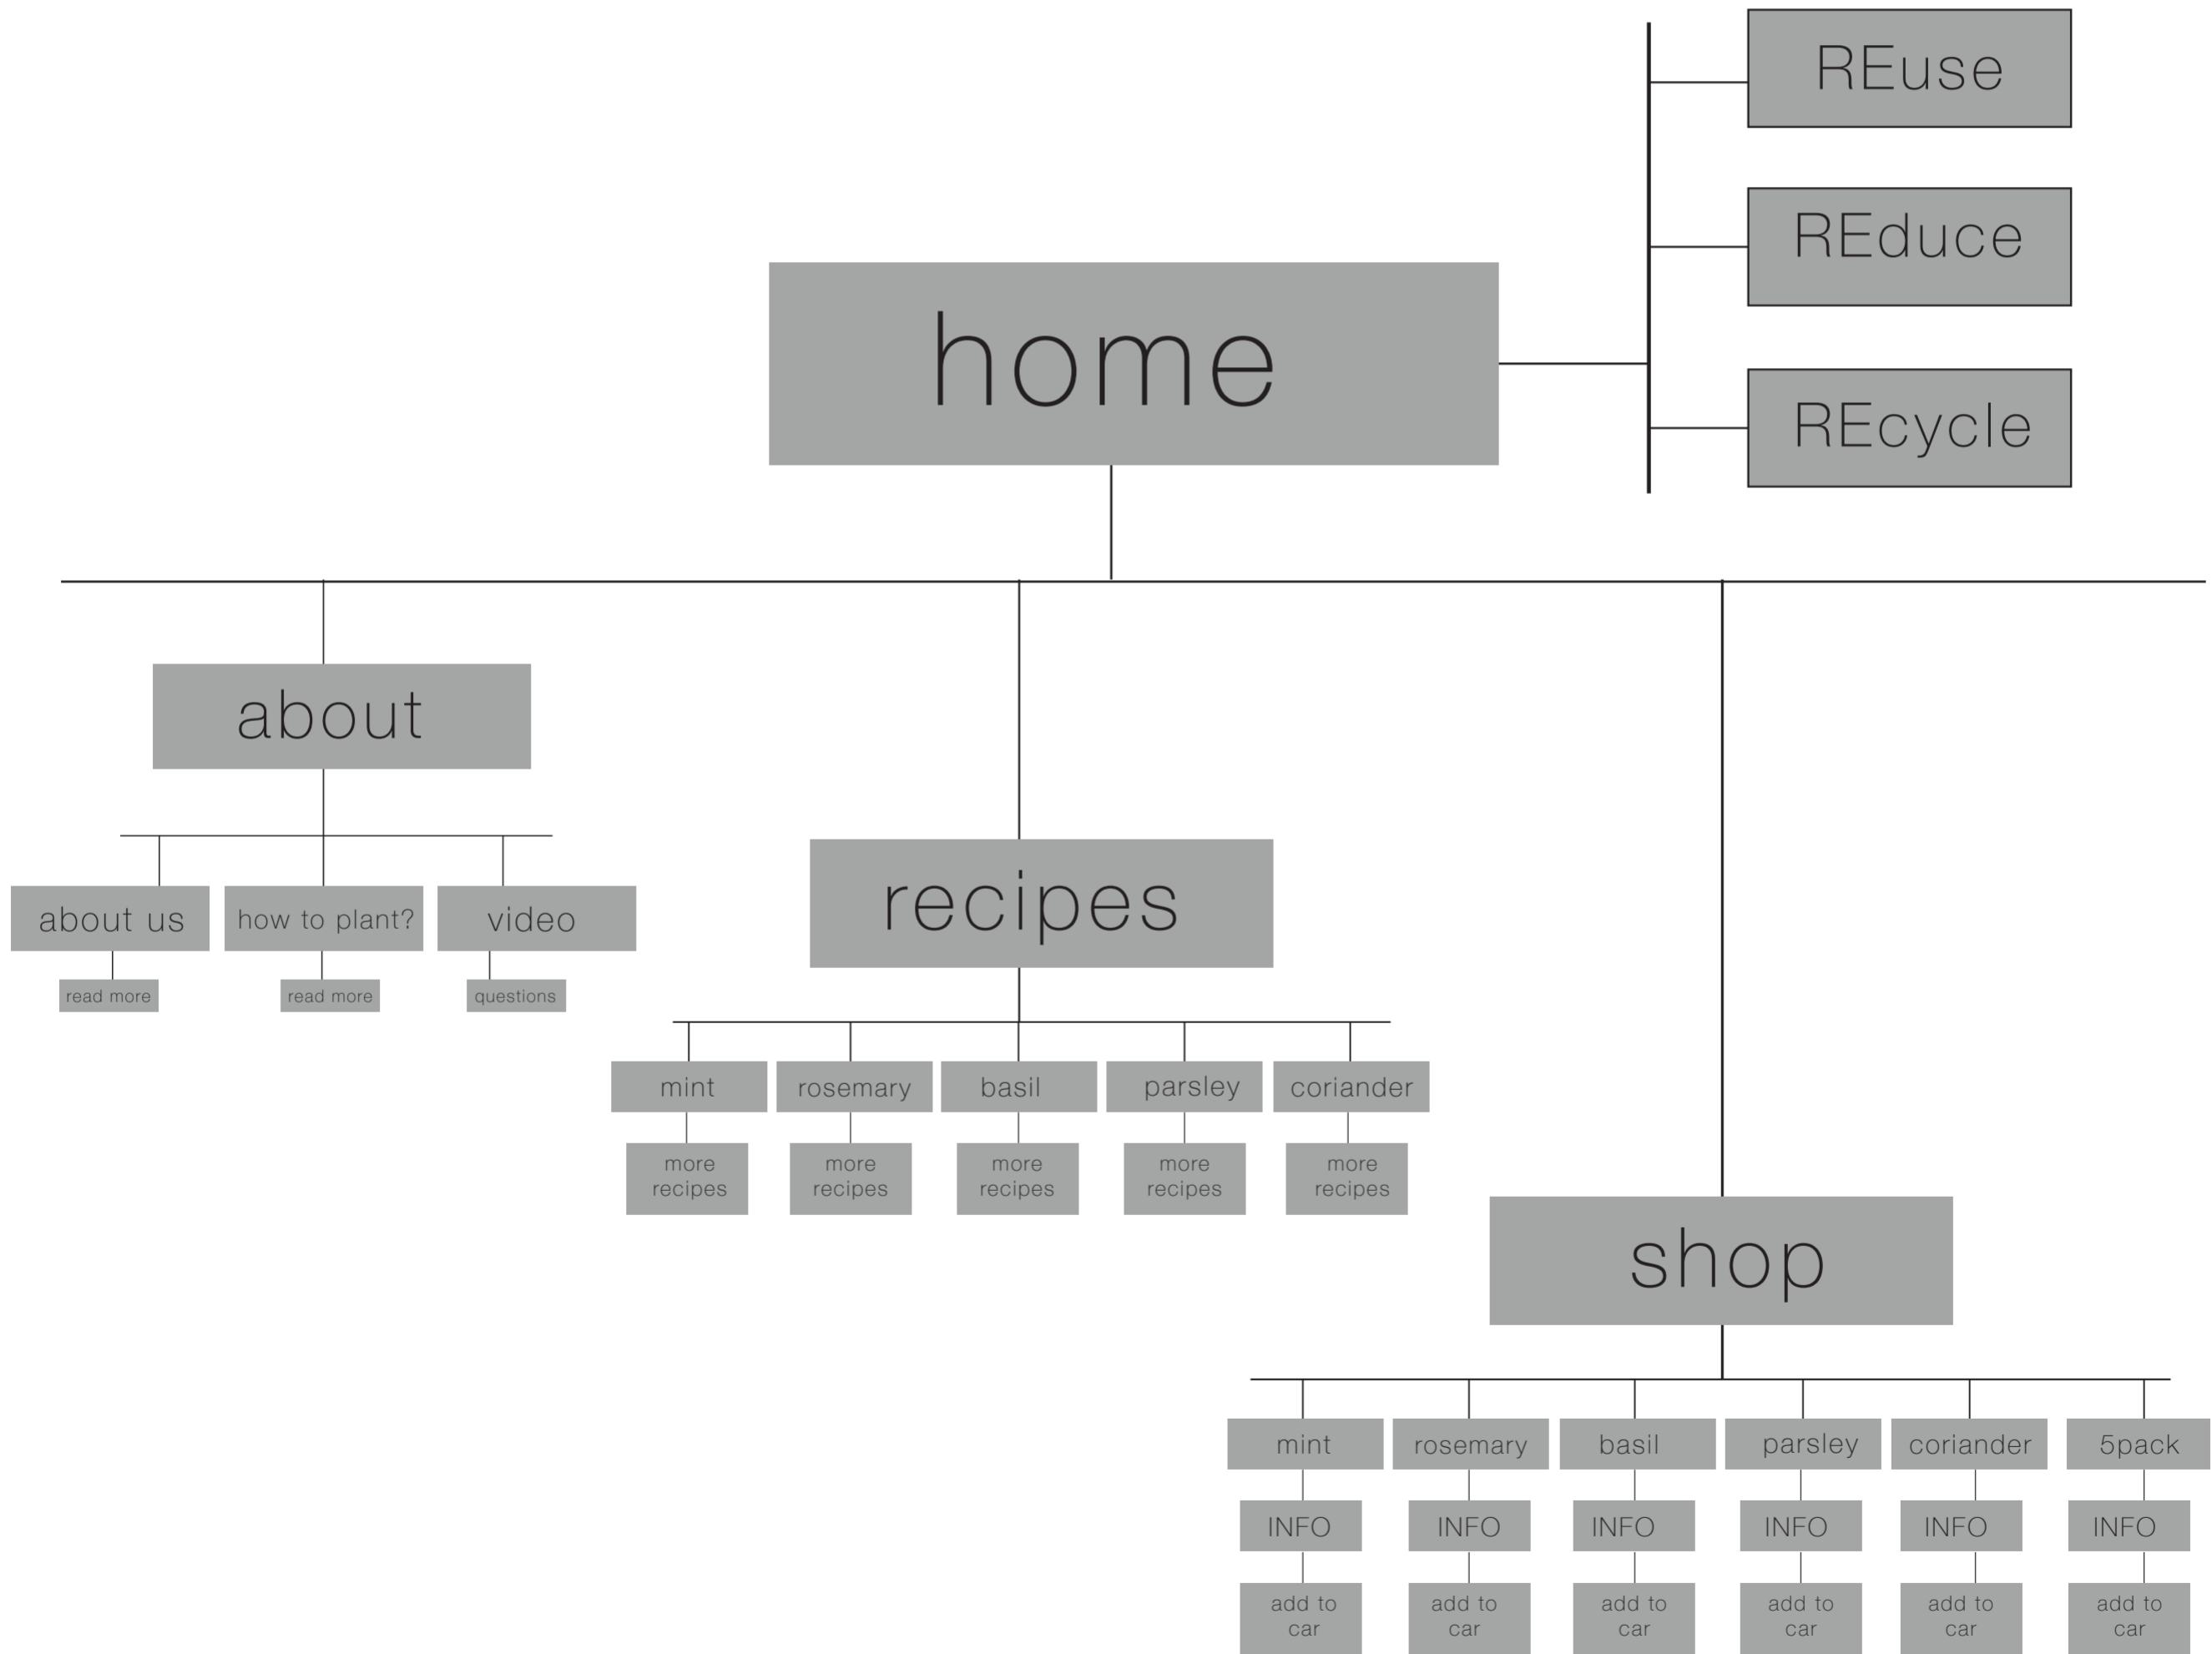

Vié es una línea de lápices creada especialmente para aquellas personas “eco-friendly” y amantes de la cocina saludable.

Cuántas veces no hemos usado un lápiz y al estar gastado lo botamos por el hecho de ser incómodo al escribir? Con Vié, no tiraremos mas lápices. Este es un producto sostenible el cual en lugar de borra, trae una cápsula con semillas de hierbas que al sembrarlas, volverán tu cocina un jardín orgánico para preparar los mejores platos con el mejor sabor.

A continuación se presentarán los esquemas de la página web para la venta de este maravilloso producto.
